

**Stay-Brite
Silver Solder**

Low temperature silver solder flows at 430°F. Flux is included. 0.5 oz.
No. 13727 **\$7.00 each**

Tix Anti Flux

Limits the spread of solder to unwanted areas. Protects previously soldered joints.
No. 14971 1/2 Oz. **\$3.25 each**
No. 17862 2 Oz. **\$5.00 each**

Tix Flux

Non corrosive and harmless to hands or clothing. Washes off with water.
No. 13770 1/2 Oz. **\$3.25 each**
No. 17861 2 Oz. **\$5.00 each**

Tix Solder

One of the hardest solders available. Melts at only 275°F. and holds 4300 lb.. per square inch. Will not tarnish. 20-3" sticks in a package.
No. 13769 **\$11.50 each**

Torch

Instant electronic ignition for up to 2400°F. Flame can be adjusted from 12mm to 32mm length. 90 minute burn time. Refill with butane available from any hardware or drugstore store.
No. 17740 **\$49.75 each**

Torch-Mini-Butane

Small, powerful torch reaches temperatures of 2370°F. The piezo-electric igniter lights torch instantly. 2 hour burn time.
No. 18219 **\$30.00 each**

Tick Tech Model 20 Pickup/Sensor

High sensitivity pickup for the Tick Tech clock timer. Fits most beat amplifiers. Heavy duty construction. 6' long.
No. 14905 **\$16.75 each**

Audio Tech Probe

NEW

Perfect for putting a clock in beat or locating problems in a clock movement. Complete with 180° swivel boom, 7" stainless steel detachable probe, stereo headphones, hand held amplifier with volume control and a "AAA" battery.

No. 23414 **\$23.50 each**

Beat Amplifier

Attach to the movement. Variable volume control with a separate on/off switch. Extra long 6' Timetrax clip on sensor. "9V" battery not included.

No. 15408 **\$30.00 each**

Digital Multimeter

Measures AC (200MV-600v) and DC 200MV-600v) voltage, DC current and resistance (200 Ohms-20k Ohms). Checks diodes, continuity, NPN and PNP. Includes a pair of heavy duty test leads and instructions. 1/2" digital readout.

No. 21070 **\$12.50 each**

Alligator Clip Assortment

NEW

Kit contains 6-2" clips, 6-1-1/2" clips, 10 mini clips, 2-30 amp clips, 2-25 amp clips and 2-10 amp clips.

No. 23371 **\$4.00 pack**

Wire Nut Connectors

NEW

30 assorted sizes in a package.
No. 23372 **\$2.00 pack**

Micro Set Precision Clock Timer

Specifications

- Time Mode measures from one to 254 beats.
- Balance Mode to put clocks "in beat".
- Count Mode for finding the correct rate of any clock.
- Strike Mode for diagnosing errors in strike
- 16 character LCD screen.
- Accuracy to one or two parts per million.
- Maximum beat time: 100 seconds.
- Maximum rate for watches: 36,000 BPH.
- Display results as Seconds Per Beat to six decimal places or Beats Per Hour to two decimal places.
- Special mode measures minute hand (one hour period).
- Blanking Window to reduce false trigger from noise.
- Produces "beep" when each new reading is complete.
- Includes both battery and AC adapter.
- Includes booklet of train times.
- Other accessories are available.
- Two year warranty.
- Made in USA.

MicroSet is a new diagnostic tool for the clock repair shop and horological experimenter. This electronic timing device measures beat times of mechanical clocks with unprecedented precision. Supports serial communications with personal computers. Includes timer, 9 volt battery, acoustic sensor, optical sensor, instructions and AC adapter. Timers are available with computer interface software.

No. 19550 **\$250.00 each**

No. 19856 Timer With Mac Interface

\$325.00 each

No. 19857 Timer With PC Interface

\$325.00 each

Time Trax Model 185 Electronic Clock Timer & Amplifier

Specifications-Model 185

| | |
|------------------|-------------------------------|
| Size | 4.00W x 7H x 1.75D |
| Weight | 11 Oz. |
| Display | 4 1/2 digit high contrast |
| LCD Train Range | 2000 to 19,999 beats per hour |
| Preset Average | 2 to 130 in steps of 2 |
| Monitor (Visual) | flashing LED with each tick |
| Beat Amplifier | built in with dynamic speaker |
| Timebase | 50 ppm quartz crystal |
| Processor | 8 bit CMOS |

Measures the rate of mechanical clocks by sensing escapement action and mechanical sounds of the escapement. Use on carriage clocks to 400-day and Atmos clocks. Reads vibrations per hour. Also has a digital balance mode which helps place a clock in beat. This unit has a built-in audio beat amplifier. Complete with a new up to date handbook of train tables and a Model #20 clip on sensor. Portable unit uses a 9 volt battery (not included). Two year warranty.

No. 17781 **\$159.95 each**

Same as above but with an AC adapter.

No. 17782 **\$175.00 each**
